## Dissemination Workshop

The **RET 2017 dissemination workshop** is a platform for last year's RET 2016 cohort to share their experiences in the program with you.

- Spotlight Presentations of research projects undertaken by the high school teachers
- Teachers will describe the inclusion and implementation of the concepts learnt in the program, in their curriculum
- Panel discussion and talks by distinguished professors

## RET program

- RET is a **NSF funded program for High school teachers** to promote and expose them to cutting edge research in STEM fields.
- Teachers enrolled in the program were involved in cutting edge research projects under mentorship and complete assistance
- Teachers received assistance in preparing and delivering the lecture content for their classes that incorporates skills and knowledge gained in the program
